The Erasmus+ Project ECOLES - Economic and Consumer Literacy in European Schools Education aims to enhance students' skills and knowledge in dealing with the emerging needs of the digitalised market and the complexity of economic and consumer matters.

Representatives from all partner countries attended the 3rd transnational partners meeting (hybrid) in Cyprus on 20-21 October 2021. During the meeting the partners discussed about the overall progress of the project and set some clear goals for the upcoming months.

On 13-17 December 2021, the consortium organised a successful LTTA activity to test the developed educational materials before their implementation in schools. The Pilot Training was addressed to teachers/educators of Primary and Secondary Education and took place at the premises of Danmar Computers in Rzeszów, Poland. During the LTTA the participants exchanged ideas and worked together very effectively on student-targeted content for Consumer Rights and everything they learned is going to be implemented in schools through local workshops in the following months.
